Profile

Front-End Developer with hands-on experience building responsive and user-focused web applications using HTML, CSS, and JavaScript. I have developed complete real-world projects including dashboards and e-commerce platforms, with strong attention to performance, clean code structure, and modern UI design.

Education

01/2024 –
Expected 1/2029
Damascus , Syria

Bachelor of Information Engineering (In Progress), Arab International University
Studying core concepts in software engineering, data structures, and databases.
Applied theoretical knowledge by building full web applications and frontend systems.
Developed strong analytical thinking and clean coding practices.

Professional Experience

01/2025 – Present
Remote-Syria

Freelance Web Developer, Front-End Web Developer
Developed and deployed responsive web applications for clients and personal projects.
Built full frontend systems using HTML, CSS, and JavaScript with clean and scalable structure.
Integrated backend APIs and implemented authentication systems.
Focused on performance optimization, UI/UX consistency, and modern design standards.

Skills

HTML5 — Competent
Build semantic, accessible, and well-structured layouts using modern HTML5 standards. Experienced in creating SEO-friendly page structures and reusable components.

JavaScript(ES6+) — Amateur
Implement interactive UI features using DOM manipulation, event handling, and ES6 syntax. Build dynamic components such as sliders, menus, modals, and form validation. Basic experience integrating APIs.

Git & GitHub — Amateur
Use Git for version control, branch management, and collaborative workflows. Maintain clean repositories and structured commits.

CSS3 — Competent
Develop responsive layouts using Flexbox and CSS Grid. Create modern UI designs with animations, transitions, and glass/gradient effects. Focus on clean, scalable styling architecture.

Responsive Design — Proficient
Apply mobile-first principles to ensure full responsiveness across devices. Optimize layouts for different screen sizes and improve user experience on desktop and mobile.

UI/UX Fundamentals — Competent
Design clean and user-focused interfaces. Apply spacing systems, visual hierarchy, and modern design trends to enhance usability.

Projects

E-commerce Platform, *Vape Store*

Modern responsive online store with dynamic cart system and product filtering.

- Built with HTML, CSS, JavaScript
- Implemented dynamic cart logic with local storage
- Product filtering and clean UI structure
- Fully responsive design (mobile-first approach)

Admin Dashboard

Admin Dashboard with Authentication

Secure dashboard interface with login system and protected routes.

- Implemented authentication logic
- Created protected routes (restricted pages)
- Integrated charts and dynamic components
- Responsive layout using Flexbox & Grid

Prop Firm Trading Platform

Prop Firm Trading Web App

Trading firm styled platform with modern UI and interactive components.

- Built dynamic UI sections using JavaScript
- Implemented structured layout for trading accounts
- Designed professional fintech-style interface
- Responsive and performance-optimized
